Approved by: Chief Medical Officer	Date Approved: 03/14/24
Clinical Policy Document: Infertility Services	Replaces Effective Clinical Policy Dated: 03/14/23
Reference #: MP/I002	Page: 1 of 2

PURPOSE:

The intent of this clinical policy is to administer plan benefits for the diagnosis and treatment of infertility.

Please refer to the member's benefit document for specific information. To the extent there is any inconsistency between this policy and the terms of the member's benefit plan or certificate of coverage, the terms of the member's benefit plan document will govern.

POLICY:

Benefits must be available for health care services. Health care services must be ordered by a provider. Health care services must be medically necessary, applicable conservative treatments must have been tried, and the most cost-effective alternative must be requested for coverage consideration.

COVERAGE:

- I. Coverage includes the professional services necessary to diagnose infertility and the related tests, facility charges, and laboratory work, such as, but not limited to, diagnostic radiology, laboratory services, semen analysis, and diagnostic ultrasounds, related to *covered services*.
- II. When *infertility* treatment is a covered benefit, it includes, but is not limited to, artificial insemination (AI) and intrauterine insemination (IUI) procedures and/or prescription drugs.
 - A. When covered, it is limited to a total of six cycles per confirmed pregnancy.
 - B. A cycle is defined as one partial or complete fertilization attempt extending through the implantation phase only. Any attempt using artificial insemination, intrauterine insemination, and/or prescription drugs will be applied to the six-cycle maximum. If the member abandons a treatment regimen before the cycle is complete, the partial cycle is counted as one of the six cycles.
 - C. Pregnancy must be confirmed by a live birth, an ultrasound, or by a spontaneous abortion/miscarriage documented by a pathology report.
 - D. When covered, benefits will be renewed if successful pregnancy is attained.
- III. No restriction is placed on the choice of a member as to where the member receives services related to the diagnosis of *infertility*.
- IV. *Infertility* services for the spouse are not covered if he or she is not an eligible member of the applicable plan.
- V. Medications used for the treatment of *infertility* are subject to the member's prescription drug services benefits.

EXCLUSIONS (not limited to):

Refer to member's Certificate of Coverage or Summary Plan Description

DEFINITIONS:

Covered Services:

Health care services that are provided by your provider or clinic and are covered by the Plan, subject to all of the terms, conditions, limitations and exclusions of the Plan.

Infertility:

Inability to become pregnant after the following periods of time of regular unprotected intercourse or therapeutic donor insemination:

1. One year, if member is a female under age 35 or a male of any age; or
2. Six months, if member is a female age 35 or older, provided that the infertility is not related to voluntary sterilization or failed reversal of voluntary sterilization; or

Inability or diminished ability to produce offspring, including but not limited to a woman's repeated failure to carry a pregnancy to fetal viability. Repeated failures to carry a pregnancy to fetal viability means three consecutive documented spontaneous abortions in the first or second trimester. Such inability must be documented by the member's provider.

Infertility Treatment/Fertility Treatment:

Health care service that is intended to (1) promote or preserve fertility; or (2) achieve and maintain a condition of pregnancy. For purposes of this definition, infertility treatment or fertility treatment includes, but is not limited to:

1. Fertility tests and prescription drugs.
2. Tests and exams done to prepare for or follow through with induced conception.
3. Surgical reversal of a sterilized state that was a result of a previous surgery.
4. Sperm enhancement procedures.
5. Direct attempts to cause or maintain pregnancy by any means, including, but not limited to: Hormone therapy or prescription drugs; artificial insemination; in vitro insemination; GIFT or ZIFT; embryo transfer; and freezing and/or storage of embryo, eggs, or semen.
