PURPOSE:

The intent of this clinical policy is to provide coverage guidelines for reconstructive surgery.

Please refer to the member's benefit document for specific information. To the extent there is any inconsistency between this policy and the terms of the member's benefit plan or certificate of coverage, the terms of the member's benefit plan document will govern.

POLICY:

Benefits must be available for health care services. Health care services must be ordered by a provider. Health care services must be medically necessary, applicable conservative treatments must have been tried, and the most cost-effective alternative must be requested for coverage consideration.

Health care services that are *cosmetic* are not considered medically necessary and therefore, not eligible for coverage.

Health care services that are *reconstructive* (ie, performed for an injury, sickness, congenital disease or anomaly) causing a *functional defect/physical impairment* or clinically significant distress or impairment are not considered *cosmetic*.

Reconstructive surgery is covered according to the member's benefit plan, applicable state statutes, the *Women's Health and Cancer Rights Act of 1998*, and the guidelines set forth in this policy.

COVERAGE:

- I. The Plan covers *medically necessary reconstructive surgery* due to the following: A - C
 - A. Sickness, accident, or congenital anomaly that is incidental to or follows surgery resulting from injury, sickness or other diseases of the involved body part; or
 - B. When surgery is performed on a covered *dependent child* because of congenital disease or anomaly which has resulted in a *functional defect/physical impairment* as determined by the attending physician.
 - C. Requests for *reconstructive surgery* causing a psychological condition must have documentation from a mental health professional, that the member's clinical condition meets the diagnostic criteria for a *DSM* mental disorder diagnosis (eg, anxiety disorder, major depressive disorder, body dysmorphic disorder) causing clinically significant distress or impairment as evidenced by validated scales and measures - must satisfy the following: 1 or 2, and 3
 1. Clinically significant distress is defined as a score of 2 standard deviations (SD) from the mean, by a disorder-specific symptom rating scale such as the Appearance Anxiety Inventory; or
 2. Clinically significant impairment is defined as a World Health Organization Disability Schedule (WHODAS) General Disability Score (GDS) of 2.6 using the current 0-4 scoring convention. (See Attachment A); and

3. Where applicable, there must be documentation that the member has not responded, is intolerant to, or a poor candidate for other appropriate or conservative treatments for the member's clinical condition (eg, psychotherapy).

II. For coverage of scar revision, see Clinical Policy: Scar Revision MC/G016.

III. For coverage of breast reconstruction following a *medically necessary* mastectomy, see Clinical Policy: Breast Reconstruction MC/G004.

EXCLUSIONS:

Refer to member's Certificate of Coverage or Summary Plan Description

DEFINITIONS:

Activities of Daily Living (ADL):

Activities related to personal self-care and independent living, which include eating, bathing, dressing, transferring, walking/mobility, and toileting/continence.

Cosmetic:

Services and procedures that improve physical appearance but do not correct or improve a physiological function and are not medically necessary.

Covered dependent child (dependent child to the limiting age):

As defined in the applicable COC or SPD, but generally is defined as those individuals who are eligible and covered as a dependent child under the terms of a health plan who have not yet attained 26 years of age.

DSM:

The most current edition of the American Psychiatric Association Diagnostic and Statistical Manual of Mental Health Disorders.

Functional Defect/ Physical Impairment:

A functional defect or physical/physiological impairment causes deviation from the normal function of a tissue or organ. This results in a significantly limited, impaired, or delayed capacity to move, coordinate actions, or perform physical activities and is exhibited by difficulties in one or more of the following areas: physical and motor tasks; independent movement; performing *activities of daily living*.

Injury:

Bodily damage other than sickness including all related conditions and recurrent symptoms.

Medically Necessary:

Any health care services, preventive health care services, and other preventive services that the Plan, in its discretion and on a case-by-case basis, determines are appropriate and necessary in terms of type, frequency, level, setting, and duration, for your diagnosis or condition; and the care must:

1. Be consistent with the medical standards and generally accepted practice parameters of providers in the same or similar general specialty as typically manages the condition, procedure or treatment at issue;
2. Help restore or maintain your health;
3. Prevent deterioration of your condition;
4. Prevent the reasonably likely onset of a health problem or detect an incipient problem.

Mental Health Professional:

Licensed Independent Clinical Social Worker, Licensed Psychologist, Psychiatric Advanced Practice Provider, Psychiatrist

Reconstructive:

Surgery to restore or correct:

1. A defective body part when such defect is incidental to or resulting from *injury, sickness*, or prior surgery of the involved body part; or
2. A covered dependent child's congenital disease or anomaly which has resulted in a functional defect as determined by a physician.

Sickness:

Presence of a physical or mental illness or disease.

Women's Health and Cancer Rights Act of 1998:

A federal mandate concerning all reconstructive surgery following mastectomy for cancer; this mandate requires coverage of reconstructive surgery for ERISA, non-ERISA, and HMO plans.
