

## Medical/Surgical and Behavioral Health Care Services Investigative List Effective: 12/05/24

This information is updated regularly. It is not an all-inclusive list of health care services considered investigative and therefore, not eligible for reimbursement. Always consult with enrollee's Certificate of Coverage (COC) or Summary Plan Description (SPD) as all eligible care is subject to limits and copayments specified by the Plan. To the extent there is any inconsistency between this List and the terms of an enrollee's benefit plan, the terms of the enrollee's benefit plan documents will control. In some instances, the CPT and HCPCS are listed for reference, only. The description of the health care service is the most definitive.
